SCHEREN - SUPERCUT

Die HLW SUPER-CUT Scheren zeichnen sich an einer Seite der Schneide, durch einen Spezialschliff und an der gegenüberliegenden Schneide, durch eine Micro-Zahnung aus.

The HLW SUPER-CUT Scissors has two different cutting blades - one with razor sharp edge and the other with micro-serrations.

PERIOTOME

PT01 Ref. 26-60

Zur atraumatischen Ex-
traktion von Implantaten,
schont Weichgewebe und
Knochen.

PT02 Ref. 26-61

IMPLANTATPINZETTE

Dieses Instrument ist die optimale Hilfe zum Gebrauch von allen Micro-Schraubensystemen in der Implantologie. Es fasst den Schraubenzieher perfekt und ermöglicht punktgenaues platzieren der Schrauben auch weit im Molarenbereich. Für alle gängigen Systeme.

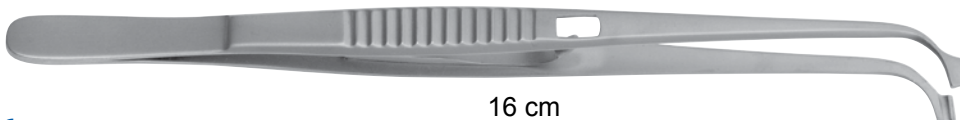

∅ 1,3 mm Ref. 40-43
∅ 1,9 mm

Zur interoralen Plazierung von Abutments.

∅ 3,0 mm Ref. 40-43A
